

Laboratory Sheet 1

Create a website of your choice. It should have a main page (index.html) that has links to 3 more pages. The website should have these elements:

- Several paragraphs of text followed.
- Nested list.
- A table with visible borders.
- 6 images arranged in a 2x3 grid.

Find a way to make an image work as a hyperlink. For example place a DIT logo on the main page and make it hyperlink to www.dit.ie
